Club Description:

The [National History Club](#) Chapter at Sacred Heart Preparatory, Atherton (SHP) wishes to promote the love of history of all at our school. We host debates, discussions with speakers, presentations, and collaborate with many other groups here at SHP. Through these activities and many more, the club has developed a space where history is discussed and preserved in the forefront of our minds. Furthermore, we strive to facilitate a space where opinions are heard, respected, and built upon.

We believe, and we know, that history plays a key role in our understanding of current events. Thus, it is essential to have a club dedicated to preserving that understanding and promoting its growth. This club is for all students who want a platform to discuss topics of historical interest or to provide their take on historical issues and stories. Many people are fascinated with the continuities of history and this club hopes to encourage that growth through discussions. In essence, we want to help build an engaging and open community that allows everyone to ask questions and share their ideas.

Our primary goals as a club are...

1. to build community through curiosity, engagement, and a love for history,
2. to discuss the connection between historical events and current events,
3. to promote the qualities of leadership among students,
4. and to provide a space for people's opinions, thoughts, and voices to be heard.

Any questions? Please feel free to contact our faculty moderator and/or our student leaders.
