

Zig-Zag - Armin Hamrah

The marvelous bishops protect the king and queen

On the outskirts of knights yet preceded by pawns

The segregated bishops zig-zag in between

Light and dark squares, before being withdrawn

On the outskirts of knights yet preceded by pawns

The bishops develop in one of two ways

Light and dark squares, before being withdrawn

The bishops develop in one of two ways

Bishops are dragons along open lines

The segregated bishops zig-zag in between

In closed structures they become less than benign

The marvelous bishops protect the king and queen
